- **Subject Areas Covered:** Reading, Mathematics, Language Arts
- **Grade Levels Able to Serve:** 1st – 12th grade
- **Minimum Number of Students Required:** 1
- **Service Area:** Omaha, Lincoln, Bellevue, Columbus, Crete, Fremont, Gering, Grand Island, Hastings, Kearney, Lexington, Millard, Norfolk, North Platte, Papillion-La Vista, Ralston, South Sioux City, Waverly, Westside
- **Geographic Setting:** Urban, Rural, Suburban
- **Place of Service:** school, business, community center, student's home, place of worship; library
- **Time of Service:** After School, Weekends, Summer
- **Length of Service:** 18-40 hours of tutoring, up to 25 weeks, up to 4 times per week, up to 2 hours per session
- **Student/Instructor Ratio:** 1 to 1
- **Able to provide services to ELL and Special Education students.**

We only offer 1-on-1 tutoring that may take place in school, home, a public library, community center or place of worship. Our approach and model of instruction is centered, around high expectations. Students are aided with a variety of key instructional strategies including test preparation strategies like reducing test anxiety, test practice questions, flash card preparation, and other test-taking strategies. Students are assessed and diagnosed using "Buckle Down" Pre and Post Tests. The Triumph Learning reading and language arts assessment test are broken down into skill area sections such as main idea, author's purpose, and cause and effect.

- **Subject Areas Covered:** Reading, Language Arts, Mathematics
- **Grade Levels Able to Serve:** K-12
- **Minimum Number of Students Required:** 1
- **Service Area:** All Schools, All Districts
- **Geographic Setting:** Urban, Rural, Suburban
- **Place of Service:** on-line
- **Time of Service:** before school, after school, weekends, summer
- **Length of Service:** 30 hours, 90 minutes, 4-5 times per week
- **Student/Instructor Ratio:** 1 to 1
- **Able to provide services to ELL and Special Education students.**

We teach students through animations and interactive lessons on the computer combined with frequent remedial interactions with tutors. In the past years, the scores of the students in Math performing 2 grade levels below their current grade level increased by 15%, and those performing 1 grade level below their current grade level increased by 21% from the pre-assessment to the post tests. We provide 1:1 on line software based live tutoring. Our tutoring program includes a minimum of 30 hours of tutoring. A student takes an assessment test either offline or online. As per the performance of the student in the test, we develop an individualized learning plan and the tutoring is based on that plan.

- **Subject Areas Covered:** Reading, Language Arts, Mathematics
- **Grade Levels Able to Serve:** K – 12th grade
- **Minimum Number of Students Required:** 1
- **Service Area:** Omaha Public Schools, Westside Community Schools (Omaha)
- **Geographic Setting:** Urban, Suburban
- **Place of Service:** school, community center, Student's home, place of worship
- **Time of Service:** before School, after School, weekends, summer
- **Length of Service:** minimum of 21 hours of tutoring over 12-14 weeks, 1 hour sessions twice per week
- **Student/Instructor Ratio:** 1-4 to 1
- **Able to provide services to ELL and Special Education students.**

1 to 1 Tutoring provides personalized face-to-face tutoring. We tutor students in reading, English, language arts, and math. We use engaging and colorful workbooks to tutor kindergarten students. We use computer-based eBooks (delivered via tablets) to tutor students in grades K-12. The workbooks are aligned to Nebraska Academic Standards. Tutoring takes place one-to-one or in small groups of 2-4 students per tutor. Tutoring sessions typically take place twice per week and are 1 hour in length.

- **Length of Service:** minimum of 18 hours, 90 minutes, 4 to 5 times per week
- **Student/Instructor Ratio:** 1 to 1
- **Able to provide services to ELL and Special Education students.**

We provide individualized, one-on-one live and software based tutoring in a safe online environment. There is no transportation cost involved as the classes are conducted online at the student's home and hence can easily be accommodated into working parents' schedules. To get enrolled in the tutoring program, a student has to take an online assessment test, which may be taken either offline or online. On the basis of the result of the test, we formulate an Individualized Learning Plan, which is followed by the tutor. At the end of the tutoring program, we conduct a post assessment test, which indicates the mastery level achieved by the student in his/her respective subject.

We offer individual online, small and large group tutoring, however our program is not one size fits all. The major elements of the provider's instructional program are an individualized style of instruction, our dedication to time on task, our instructional strategies and our research based scientifically proven Triumph learning curriculum. The provider prides itself on having an instructional program that works with various student populations and has the ability to individualize learning for every Title I student.

- **Student/Instructor Ratio:** 5 to 1
- **Able to provide services to ELL and Special Education students.**

We provide secular, neutral, and non-ideological tutoring services to students enrolled in grades K-12, in the subject areas of reading, writing, mathematics, and English as a second language. The program model uses relationship building by the tutor with the student to facilitate the student's hope and enthusiasm for learning, thus engaging the student in the tutoring services. Tutoring sessions are designed to follow a roadmap, beginning with the first achievement goal outlined for the session. Once a student masters a goal, they progress forward to the next goal. The roadmap incorporates different learning modalities and curriculum derived from Houghton-Mifflin.

Applied Scholastic International

- **Subject Areas Covered:** Reading, Language Arts, Mathematics
- **Grade Levels Able to Serve:** K-8
- **Minimum Number of Students Required:** 5
- **Service Area:** Omaha Public Schools (any elementary and middle school)
- **Geographic Setting:** Urban, Suburban
- **Place of Service:** school, community center, student's home, library
- **Time of Service:** before school, after school, weekends, summer
- **Length of Service:** 18-30 hours; 24-28 weeks; 60 min sessions; 3 times a week
- **Student/Instructor Ratio:** 1 to 1; small group 2 to 1
- **Able to provide services to ELL and Special Education students.**

Our tutors use a powerful teaching method that effectively addresses the three main reasons students are not able to learn. Our program, the Applied Scholastic Achievement Program, produces students who can read fluently, and most importantly, with comprehension. Students are able to complete math problems with full conceptual understanding, and who not only pass tests, but have learned how to overcome study barriers on their own. As a result they are able to study more independently and therefore, be less dependent on a teacher for help.

Brave the Elements, The Children’s Carousel Charitable Foundation, Inc. is a K-12 on-line, small group, individualized tutoring or one-on-one tutoring service. Our mission is to enhance and motivate individually each student’s educational learning process. The content focus includes reading, math, language arts, and writing. Students are pre-tested to check what has already been learned. Student Learning Plans are generated based upon the pre-test scores, and assignments are given to ultimately obtain state standard mastery. Students receive a tablet (which must be returned), monthly progress reports, and a certified teacher/tutor, sometimes according to their language as needed. We fill in the gaps not learned, and specialize in working with ESL, bilingual, special education, and juvenile justice students. We serve all students in the K-12 grades. We have services for blind students, and students that are autistic, and deaf.

Education Futures Corp.

- **Able to provide services to ELL and Special Education students.**

We will provide service to students in grades K-8 in ELA and math, including English Learners (EL’s) and students with disabilities. We will use the Danforth Assessment Test, a standard-referenced, multiple-choice test. The Danforth Assessment Test measures making inferences, drawing conclusions, author’s purpose, vocabulary, number sense, measurement, geometry, spatial sense, algebraic thinking, data analysis, statistics and probability, critical reading, media literacy, test structures and features, recall, recognition of key ideas/details, conventions, math operations, and critical thinking. We will offer several modes of instructional delivery. All instruction will take place using consumable workbooks; we may supplement instruction with e-books.

- **Length of Service:** 2 to 3 hours a week; one hour per day per student; 36 weeks
- **Student/Instructor Ratio:** 20 students for every 1 instructor
- **Able to provide services to ELL and Special Education students.**

The district will utilize Direct Instruction in a small group/individual setting in order to maximize student achievement.

Qualified staff members will analyze the most current NWEA MAP or other Norm Referenced test data, Nebraska State Assessment data, and DIBELS/AIMSweb benchmarking data in order to identify specific skill gaps of individual students. Once these gaps have been identified, an individual improvement plan that addresses these specific needs will be constructed and students will be grouped according to like needs. In addition regular progress monitoring will occur to ensure the effectiveness of the individual improvement plan. Participants will meet at the district and utilize the district's computers in order to access programs.

- **Student/Instructor Ratio:** 1 to 1 or small group, not to exceed 8 students to 1 instructor
- **Able to provide services to ELL and Special Education students.**

ESU 19 Strategic Tutoring Program has been developed in partnership with the Omaha Public Schools. The development and design of the Strategic Tutoring Program is focused on the following research based components that have a positive effect on student achievement: 1.) increased learning time; 2.) the use of the Gradual Release of Instruction as a delivery model; 3.) the use of high-yield literacy strategies across the content areas; and 4.) the use of formative assessment and progress monitoring. The tutor develops a trusting, mentoring relationship with each student as a means of encouraging the student to put forth the required effort in order to be academically successful.

EduPlus LLC

- **Able to provide services to ELL and Special Education students.**

EduPlus LLC has developed an academic improvement program that teaches students through animations and interactive lessons on the computer combined with frequent remedial interactions with licensed teachers thus instigating low achieving students to be at par with their peers. It addresses the needs of struggling students in English, reading and math for grades K-12. Lessons are conducted online on our laptops, which have been pre-loaded with our self-developed software and students can connect with our live tutors with a click. Students are not required to incur any cost associated with the equipment needed for the classes. We provide a laptop and Internet, free of cost, for students who do not have it. All equipment must be returned upon completion of the tutoring.

- **Student/Instructor Ratio:** 1 to 1
- **Able to provide services to ELL and Special Education students.**

At Eduwizards all online tutoring is one-to-one and can be conveniently taken from the student's home. Tutoring takes place using our virtual classroom, which includes whiteboard, text, and voice chat. The classroom size is one student and one instructor which allow for maximum concentration, focus, and attention. The tutor can take individual care and pay attention to the student's needs. All our tutors have a Bachelor's degree or higher qualification, and most are state-certified. Our vast database of tutors allows us to find tutors who have thorough knowledge of the particular state's curriculum standards.

I Can Achieve Educational Services

72 Belmonte Circle

- **Length of Service:** 20+ hours; 5-12 weeks; 60-120 minutes; 2 times per week
- **Student/Instructor Ratio:** 10 to 1; However 95% of our SES students are at a 6:1 ratio
- **Able to provide services to ELL and Special Education students.**

Our program works with inner city students, rural, charter, public, and private school students at all levels to improve standardized test scores and achieve academic success. Our program uses pretests, mid-tests and post-tests to assess student skill gaps and with this information, our instructors identify and prescribe instruction based on each student's strengths and weaknesses. We offer small interactive classes and high quality instruction in English language arts, mathematics, and reading customized to meet each student's needs based on the pre-test. All instruction is face-to-face; I Can Achieve does not provide online instruction.

Kinetic Potential Scholars

- **Student/Instructor Ratio:** 1 to 10 students for every instructor
- **Able to provide services to ELL and Special Education students.**

Learn It provides an instructional program that determines each student's academic skill gaps (Assessment and Diagnosis), creates a prescription for instruction that is aligned to classroom instruction (Prescribed Instruction), assesses students throughout the program to determine if instruction requires modification to meet each student's needs (Progress Monitoring), and assesses students at the conclusion of the program to determine overall academic progress (Summative Assessment). At the core of our program is this systematic process that ensures students are receiving support in the most critical areas.

Our program offers the choice of individual or small group tutoring in reading and/or mathematics. Our program design focuses on assisting Title I students to improve their achievement on state and national standards. Student achievement is measured throughout the course of the program by informal quizzes, tests, and tutor observations. Final progress is measured by the administration of a post test that measures student achievement on the Nebraska State Academic Standards.

Promise Tutorial provides high quality, educational support services for students K-12 in math and reading in a one on one or small group environment. Our instructors have many years of experience working with Title I students and our organization provides professional development in continuous training opportunities for staff. Direct Instruction is used to promote significant growth in student achievement and close skill gaps. Promise model reflects research based data driven best practices that has served over 1500 students. Our program provides a pre-assessment to identify skill gaps and an individual plan is created and serves as a framework for their learning program.

We provide high quality online tutoring in mathematics and English language arts for students K-12. We will provide computer (net book, tablet, or laptop) and internet for the duration of tutoring (devices must be returned upon termination of the program). The platform allows students to write on the white board screen to solve problems and view slides and/or worksheets. Each student will have their own profile where they can view upcoming sessions and connect to sessions where a tutor is waiting. We have over 2,000 Power Point, Word, and PDF lessons all aligned to Nebraska Academic Standards.

Sylvan In-center offers a variety of language arts programs designed to assist learners (pre-K through high school) and to address gaps in their language arts skills. These programs include individualized and small-group programs offered in person at a Sylvan Learning Center, online programs via Sylvan Online, and small-group programs offered at school sites. Sylvan's Ace It! Tutoring program is specifically designed to provide supplemental academic intervention and support for students at risk for literacy difficulties particularly socially-and economically disadvantaged students.

The TC Program offer parents a choice between two modes of delivery – online instruction in home and in person instruction onsite. Both methods consist of individualized instruction utilizing dynamic content assisted by a computer, headset, internet, and Study Island online curriculum all provided by TC Tech. The program delivers research based strategies and technology assisted learning for heightened achievement utilizing online Study Island software curriculum, a computer and internet – learning tools also provided by TC Tech (all learning tools must be returned upon termination of the program). We deliver math supplemental services only to our students.

TEC provides tutoring to individuals with learning differences and or learning needs. When an individual comes to TEC for services an assessment is given to determine the exact needs of the student. Once the student's needs are identified, goals are set. TEC provides individualized instruction. With one-on-one instruction the teacher can easily identify the needs of the student and modify the instruction when needed. Parents receive progress reports from the instructor after six weeks of instruction.

- **Able to provide services to ELL and Special Education students.**

Our program pledges to provide a tutor who truly cares about each student and is able to help them to reach their highest potential. The program uses a blended learning approach that utilizes research-based game formatted computer programs. Three models will be offered to provide tutoring in schools, community centers, in students' homes, and through online programs. In all three models, students are pre-assessed in order to find which skills need additional instruction, and each student is given an individual learning goal.

Variations Educational Services will provide high quality tutoring that is guided by educational practices that show evidence of supporting student learning and improving academic achievement. The instructional methodology and materials used at Variations are based on a strong foundation of research that suggest that students learn best from one-on-one or small group tutoring that combines traditional methods of learning as well as the use of technology. The program combines traditional one-on-one or small group tutoring either in-person or online through web conferencing that includes engaging modules available online 24/7.

Our Program approach/method uses all the learning pathways: seeing, hearing, feeling, and awareness of motion, brought together by the thinking brain. The tutor engages in multisensory teaching to convey curricular content in the most understandable way to the student. The teacher also models how the student, by using these multiple pathways, can engage in multisensory learning that results in greater ease and success in learning. The tutor presentations employ lesson formats which ensure that the student approaches the learning experience understanding what is to be learned, why it is to be learned, and how it is to be learned.
